

SRUTHI V NAIR

FRONTEND DEVELOPER

sruthivnair78@gmail.com | 9961167295 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

SUMMARY

Frontend developer with a UI-focused approach, building responsive and accessible user interfaces using HTML, CSS, JavaScript, and React. Strong focus on translating design intent into clean, usable interfaces, with a background in architecture emphasizing layout, visual hierarchy, and usability.

SKILLS

Frontend Development - HTML, CSS, JavaScript, Responsive Design, Cross-browser Compatibility

Frameworks/Libraries - React, Bootstrap

UI/UX - Design-to-code workflows, component-based UI, accessibility fundamentals (WCAG)

Tools - Git, GitHub, VS Code, Chrome DevTools, Firebase

PROJECTS

Bookmark Landing page

[GITHUB REPO](#) | [LIVE DEMO](#)

HTML | CSS | JavaScript

- Implemented a fully responsive, pixel-accurate product landing page design, with tabbed features, FAQs, and validated email input using vanilla JS.
- Created custom UI elements using CSS, with careful attention to layout and accessibility through semantic HTML and ARIA attributes.

Travel Landing page

[GITHUB REPO](#) | [LIVE DEMO](#)

HTML | CSS | JavaScript

- Developed a fully responsive travel landing page using Flexbox and CSS Grid, with layouts that adapt cleanly across screen sizes.
- Designed a smooth hero image slideshow and clear card layouts to improve visual hierarchy and content readability.

Room Homepage

[GITHUB REPO](#) | [LIVE DEMO](#)

HTML | CSS | Bootstrap | JavaScript

- Implemented a responsive homepage layout using Bootstrap grid with an interactive hero image slider supporting mouse, keyboard, and button navigation.
- Ensured cross-browser compatibility and consistent behavior across screen sizes.

Trivia Quiz app

[GITHUB REPO](#) | [LIVE DEMO](#)

JavaScript | React | Chakra UI | Firebase

- Built a trivia quiz application using React with category-based question fetching from the Open Trivia DB API based on a Figma design.
- Enforced email and guest authentication, storing quiz data, scores, stats, and badges in Firebase Firestore.
- Designed clear user feedback flows with loading states, error handling, score/result indicators, and account-related actions.
